

BAGGAGE CLUE

TO THE LOCATION OF
LEON LING IS
LOST.

Queer Circumstances in
Connection With it in
Cleveland.

TWO LETTERS
WHICH CHU GAIN

Received Warning Him to
Pay No Attention to
Siegel Girl,

Surrendered to District At-
torney.—Ling May be
in Cuba.

Cleveland, June 24.—All trace of
the baggage received here from
Schenectady, N. Y., which is sup-
posed to have been checked by a Chi-
nese man answering the description of
Leon Ling, sought in connection with
the murder of Elsie Siegel, appears to
have been lost. The baggage ar-

rived in Cleveland last Sunday and
the original and duplicate checks are
in the possession of the railway com-
pany indicating that not only was the
baggage received here, but that it
was claimed by its owner.

A peculiar feature of the handling
of the checks is that there was no
record made of them. The railroad
officials, therefore, are unable to say
of what the baggage consisted, and
what became of it. No one in the
baggage room remembers handling the
checks, nor who presented the
duplicate checks, nor do the trans-
port companies remember hauling the
baggage.

Cleveland, O., June 24.—The
trunk shipped from Schenectady, N.
Y., by an unidentified Chinaman and
sought by the police as a possible
clue in the Elsie Siegel murder in
New York, has been received and
partially traced in this city. Records
unearthed today at the union sta-
tion show that check No. 854,662,
which covers the trunk in question,
was duly received following its ship-
ment from Schenectady. Records do
not indicate that it was transhipped
or re-shipped. Efforts are now being
made to trace the trunk where
abouts in this city. It is believed
the check was mailed here from New
York City.

New York, June 24.—Rumors as
to the whereabouts of Leon Ling,
the young Chinaman who is sought
by the detectives in connection with
the Siegel case continued in abun-
dantly today. There was also a fresh
crop of theories as to the motives
which had prompted the crime and

Chong Sing, a friend of Leon Ling, who gave the police information which may lead to the arrest of the murderer.

as to the exact manner of its com-
mission; but in spite of almost every
rumor of the capture of the mis-
sionary Chinaman in almost every
quarter of the United States, there
was nothing tangible upon which to base
a clue of use in tracing down the
murderer.

The advanced state of decomposi-
tion of the body when found pre-
cluded any autopsy or examination
to show what the cause of death had
been.

The theory of Quon Yek Nam that

ACCIDENTALLY

Shot Fatally by Boy While
Packing his Trunk.

Washington, June 24.—Acci-
dentally shot through both
lungs by a pistol in the hands
of Robert Healy, aged 9, who
was watching him pack his
trunk, preparatory to leaving
the city, was the fate which last
night befell Joseph Colliflower,
aged 19. Colliflower died soon
after receiving the wound.

the girl had died from an overdose of
chloroform administered by Leon
(cannot be confirmed as the handker-
chief which his room mate, Chun Sin
declares he saw over her mouth has
disappeared).

The finding of the two letters written
by Leon to Chu Gain, who he
regarded as a rival in the affections
of the Siegel girl in which Leon
threatened the life of both Chu Gain
and the young woman, is the best
evidence obtained as yet to show the
motive of the case.

Both these letters, which are in
Chinese and signed "The Chief,"
were today shown to Chun Sin and
readily identified by him as having
been written by the fugitive.

The text of these letters has not
been revealed but it is known that
in them Chu Gain is threatened with
violent death unless he discontinues
his attentions to Miss Siegel.

Chu Gain has also said that his
own brother brought him oral warn-
ing, emanating from Leon, that he
must cease his visits at the Siegel
home and that on one occasion when
he called at the home of the young
woman, Leon who was already there
left the house in a passion.

The two threatening letters re-
ceived by Chu Gain, warning him to
pay no attentions to Elsie Siegel on
pain of death, were surrendered by
Chu Gain to Assistant District At-
torney Ward today. The letters
were signed "The Chief" and were
written in Chinese characters.

The possibility that Leon Ling has
fled to Cuba was brought to the at-
tention of the police today by a
white woman living in Chinatown.
The woman told the police that she
had heard two Chinamen discussing
the Siegel case, and heard them ex-
press the belief that Leon is now in
Cuba. The two Chinamen will be
questioned if the police can find
them.

San Francisco, June 24.—A detail
of detectives is searching the Pacific
Mail Line Manchuria due to sail to-
day for Leon Ling. The detectives
had information leading them to be-
lieve the suspected Chinaman was
on board.

Last Fall Do Not Militate
Against Partisans at
Primaries.

Columbus, O., June 24.—Re-
publicans who voted for Judson
Harmon for governor last fall
are not disqualified from voting
at republican primaries under
the new election law, and dem-
ocrats who voted for Andrew L.
Harris for the same office at the
same time, are doing did not
forfeit their right to vote at
democratic primaries. This is the
essence of an opinion given by
Secretary of State Thompson,
assistant state supervisor of
election, to Jas. S. Hilbert, of
East Liverpool, a member of the
Columbian county election
board.

TESTED MOTOR
FOR TOMORROW.

Washington, June 24.—A flight by
the Wright aeroplane is expected to
take place at Fort Myer opposite
Washington tomorrow morning. The
brother aviators tested the motor of
the machine today and finding that
a few minor adjustments must be
made, were unable to attempt an
trial today. Aside from these small
troubles little defects in the aero-
plane was found. Everything will
be made in readiness for a trying out
flight tomorrow.

TORRID WEATHER
IN PHILADELPHIA.

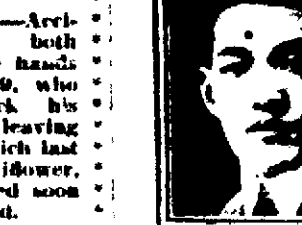

Philadelphia, Pa., June 24.—Phila-
delphia today continued to suffer
in the torrid weather which set in
last Sunday. At noon the tempera-
ture was 88 degrees, one degree
higher than yesterday at the same
hour. The percentage of humidity
was also higher than yesterday mak-
ing the day very uncomfortable.
Three deaths due to the heat were
reported up to noon, making 12

Nashville, Tenn., June 24.—The

trance to the State Capitol grounds.
It is proposed to erect a memorial

the lower percentage of moisture
mitigating somewhat the effects of
the high temperature.

the couple who had not been
seen since Sunday night. In the
bath room, seated nude in the
tub was McNamara unconscious.
His wife was nearby and had
been dead for 36 hours.

Believing at first that both

Her Own History and Died as
She Predicted.

ment of \$146,000 to the state com-
ptroller as the collateral inheritance
tax on the estate of the late Louis A.

000. Mr. Heinsheimer was a mem-

than \$5,000,000.

about gathering up the fish, taking
them away in pails and jars.

Dewey, as head of the Christian

the independent officers elected sev-
eral weeks ago were sworn in by
the retiring city council. The Voliva
officials admitted their defeat only
after they had attempted to adjourn
without sanctioning the officer's elec-

absolutely without a governing body,
but the attempt was frustrated by a
rush into the council chamber by
300 members of the independent
faction. E. N. Richey is the new

FARMERS UNION
FOR BETTERMENT

AND THE ADMINISTRATION IS ONLY SIX MONTHS OLD.

Governor Harmon is Showing Up Profligacy in State Affairs.

FULL EXPOSURE
CAN ONLY COME

When Men Are Elected with
Him Who Will Give
Him Support.

(By Orville C. Riddle.)

Columbus, O., June 24.—Last fall the people of Ohio elected two democratic state officials, the governor and state treasurer.

They had become thoroughly disgusted with the way things had been going at the state house and they wanted a change. They became suspicious when state officials who were supposed to be the servants of the people resisted investigation by lawfully appointed committees of the legislature. They became alarmed when state officials refused to answer questions or to produce records to these investigating committees and insolently replied "none of your business" when asked questions of the utmost importance to the general public. They became indignant when these insolent officials were shielded by an acting republican governor and other republican officials who clicked together with the machine bosses in the selection of a state ticket in the name of the republican party.

So they resolved to "clean out the state house," but the election of a democratic governor and state treasurer was as far as they got in the house-cleaning.

Three years before the people tried to effect the same result by electing only one democratic official, the governor. They did not elect anybody to support him, not even a democratic lieutenant governor; while the legislature was republican in one branch and evenly divided in the other, making the position of a democratic governor alone in the midst of hostile political surroundings exceedingly precarious. So

they were cheated entirely out of all they had hoped when death removed worse than before.

When the people elected a democratic governor and state treasurer in 1906 they made some gain over their partial victory in 1905. But they made almost the same mistake they made in 1905. They did not elect Governor Harmon a democratic lieutenant governor to stand by his administration in the senate, nor any other state officials except state treasurer to work in harmony with him. These state officials were made politically hostile to him in both branches as proven by a short special session beginning by design a week before the change of administration.

Secret conferences were held in the office of the republican attorney general, from which instructions were issued to both branches of the legislature through the party leaders of the majority; and the secretary of the state republican committee acted as lobbyist on the floor to see that their orders were obeyed. Lap-over appointments of the retiring republican governor were confirmed to put stumbling blocks in Gov. Harmon's way. The republican majority under command of the bosses refused to provide for an inventory of property at state institutions; rejected Gov. Harmon's recommendations on taxation; refused to continue the Cincinnati probe; refused to give the governor additional power to make investigations; ignored all other vital recommendations of the governor; and called him a peanut politician although he stands peer among the nation's most eminent statesmen.

Despite partisan obstruction, democratic administration of two state offices is producing results that are pleasing the people.

Instead of state deposits being juggled among favored banks, competitive bidding open and impartial to all is turning into the state treasury \$1000 per week as interest on deposits.

The penitentiary has been put under control of a competent board of business men, through which it has been discovered so far that the state has lost over \$50,000 on contracts under former administrations.

The Athens hospital and Delaware home for girls, which have been racked with scandals for years, have been put under new management without lurid sensationalism or

If you are troubled with pimples, blackheads, acne, barber's itch, eczema, itching of the skin, or any other skin trouble, you can cure it with Hukara.

This pure and simple skin food is being introduced in Lima by Wm. M. Melville at 25c for a liberal sized jar, and in the past few weeks he has sold hundreds of treatments.

It contains no grease or acid, is cleanly to use and is a true food and nourishment for the skin, cleansing and clearing it in every pore, making it soft, white and velvety.

If Hukara does not do even more than is claimed for it and give perfect satisfaction return the empty jar to Wm. Melville and he will refund your money. If you have any skin trouble you cannot spend 25c to better advantage than for a jar of this skin food.

petty politics.

More recently the state fire marshal's office was found to be a foul nest of political profligacy and it is being given a thorough renovation.

Other subordinate state departments are being put on a competent business basis. And the administration is only six months old.

What a thorough house cleaning there might have been if the people had elected all the candidates on the ticket with Governor Harmon last fall.

The people of Ohio are beginning to realize it. Instead of only a partial victory, such as they won in 1905 and lost by death then won again in 1908, they are resolved not to make the same mistake in 1910. They are going to complete the work of cleaning out the state house. Harmon and a clean sweep next is their slogan, and that also includes the legislature.

Commenting on the loss of over \$50,000 on penitentiary contracts under former administrations, the Sandusky Star says:

"Why was not the money collected promptly before the claims reached such a large sum? Was there negligence or favoritism? The taxpayers who must make up this loss would like to know. The discoveries thus far make it seem probable that the charge which was made by the governor, that he was being ground for further charges, it has been found all too often that long-continued control under one management leads to practices which are not for the public good. An occasional change and shake-up is a necessity. Possibly there have been other losses and in other institutions. Enough has already been disclosed to make urgent a clean sweep of the state.

That's the point, exactly. And that is just what the people are resolved to do, make it "Harmon and a clean sweep next time."

Instead of competitive bidding for state deposits the Ohio bankers declared at their state convention in favor of a flat rate of interest with a uniform distribution of funds among all banks that qualify, no bank to receive deposits in amount greater than one-third of its paid up capital and surplus.

One trouble with the way the state's surplus was handled before was that it was put out at a flat rate of interest that was entirely too flat. Mr. Green, the defeated candidate for state treasurer, declared that the funds could not be put out successfully by competitive bids and that under such a plan the bank would be gobbled up by the big city banks.

Without any law requiring competitive bids Treasurer Creamer went ahead to fulfill the promises of the democratic campaign. He gave the banks of Ohio opportunity to bid for state deposits. The results was a larger rate of interest, adding \$1000 per week to the state's income, and distribution among a larger number of banks than before without favoritism; deposits at the speculative centers were reduced and a more equitable distribution made among banks in the smaller cities and towns. The people will look with suspicion on any plan a republican legislature may attempt to substitute for it.

HIS POSITION

ON LUMBER, HIDES AND IRON ORE

Pleases Bailey, of Texas.

So He Replies to His Critics.

HAS NO PATIENCE WITH THE FELLOWS

Who Would Apply Free Trade Exclusively to the Factories,

And Denounces Doctrine of Free Raw Material as Nonsensical.

Washington, June 24.—In a long speech in the senate today, Senator Bailey, of Texas, made reply to those who have been criticizing him for his position in favor of a duty on hides, lumber and iron ore and other products of raw material in connection with the pending tariff bill. His expression on the subject of hides is a fair example of what he said with reference to the other articles involved.

"If," he said, "I were invested with power to repeal any duty I would not repeal the duty on hides until I could also repeal the duty on shoes and leather goods. I would not repeal either until I could repeal both, and I would either have free trade in everything made out of hides, or else I would lay a revenue tariff on the hides."

He could not, he said, comprehend how a democrat could think that he was relieving the consumer from the exactions and oppressions of the manufacturers by voting to take the duty off of what the manufacturers buy from the people and still leaving a duty on what the people buy from the manufacturers.

"That kind of a man," he continued, "may be a free trader, but he is a free trader in spots; and the misery of it all is that he selects the spots where he applies his free trade doctrine. I have sometimes doubted the sincerity of the men who denounce the greed of American manufacturers and then gratify that greed by exempting the self-same manufacturers from the taxes which everybody else is required to pay. If they really believe that one class is robbing all other classes they ought to punish the robbers and not the victims."

Mr. Bailey was willing to concede that the democrats who advocate free hides desired as earnestly as he did to reduce the price of shoes and of leather goods generally, but not to concede that they knew as well as he did how to accomplish this result.

"They seem," he said, "to think that the proper method is to first reduce the manufacturer's cost of production and then reduce the duty on the finished product. That will undoubtedly reduce the price of the finished product to the ultimate consumer, but there is another and much juster way to accomplish the same end."

Outlining this plan, he insisted that the producer of the raw material and the manufacturer of the finished product should be compelled to share in the reduction on behalf of the wage people.

With reference to lumber, Mr. Bailey contended that the forests would not be preserved by placing lumber on the free list, his argument being that the timber lands of the United States and of Canada must supply the demands of both countries and that therefore it would make no difference from which country the timber must be cut. He also argued that the only people who would be benefited by free lumber from Canada would be the lumber buyers along the Canadian border.

"And what right have they," he asked, "to ask of us that we give them the advantage of free trade in this particular article? Do they not demand a protective tariff upon the meat and the bread stuffs which they produce? Do they not vote for these high duties on manufactured articles? I am actuated by no narrow prejudice, and my mind is free from every taint of sectional animosity; but I shall never consent to give free trade to a people who impose protection on everybody else. I shall resolutely stand here and insist that those who apply protection to others shall not be suffered to escape it themselves."

In another connection, Mr. Bailey declared that he could not answer to his judgment and his conscience as a democrat for voting to put lumber on the free list, while glass, hardware, cement, paint, and every other necessary material are subject to a duty of more than 20 per cent.

Saying that he had been told that free iron ore would stimulate the independent steel companies, Mr. Bailey declared that "There is only a semblance of competition between the steel trust and these so-called independent companies." His information was that the price list of the independent companies read like copies of the trust, a fact which, he said, had led to open charge that there is an agreement between them. He himself did not make that charge, but merely referred to it, but he contended that whether true or not, competition would not be obtained by the removal of the duty on iron ore.

Mr. Bailey again declared that the offenses of the trusts could not be reached through the tariff and by exemptions from duty of raw material. On this point, he said "To construe the democratic demand that trust-controlled articles shall be placed on the free list as requiring us to ex-

empt raw materials from duty is to make our party ridiculous in the eyes of all intelligent men. Such a law will neither hurt the trusts nor help the people, because it will not increase the manufacturer's cost of production or reduce the price of his finished product. So far as the democratic party can deal with the trust question through tariff legislation it will remove tariff duties from the finished products, because that will reduce their price, thus hurting the trusts and helping the people at the same time. As every senator knows, I hold tenaciously to the opinion that the only way to destroy the trusts now in existence and to prevent the formation of others is to send the men who organize and operate them to the penitentiary and I am confident that the next few years will bring all men to concur in my opinion. But while I am waiting for that time to come, and ignoring the embarrassment which will arise from the loss of revenue, I am ready to put the finished product of every trust in America on the free list; but I utterly refuse to insult the intelligence of my countrymen by asking them to believe that I help the people by leaving a duty on what they buy from the trusts, and at the same time by removing the duty on what they buy from the people."

Mr. Bailey's speech was in the main devoted to an effort to show that free raw material was not a cardinal democratic doctrine, and that he had never advocated such doctrine. He was willing to admit that "During the time when Mr. Cleveland and his friends dominated our party, they did commit it to the supreme folly of giving our manufacturers free trade in what they buy, while leaving them protection on what they sell." He had, however, in season and out of season denounced this as a radical departure from the well established principles and policies of the democratic fathers. After citing many of his authorities, he traced the advocates of free raw material to the late Hon. Abraham S. Hewitt, of New York, but declared that this doctrine had never "commanded any substantial support among the leaders of with the rank and file of that sturdy democracy won so many victories and administered this government with such consummate wisdom through so many years."

Referring then to the position of Hon. Roger Q. Mills, of his own state, Mr. Bailey pointed out that as far back as 1896 he, Mr. Bailey, had taken a position against free raw material. He said that in 1900 he had canvassed his state, everywhere denouncing "this fallacy," and that he had been elected to the senate on that issue among others.

Concluding Mr. Bailey expressed confidence that the time would come when, with a democratic majority in the senate, he would be called upon to aid in passing a democratic tariff bill, and he said he did not desire to then be upbraided for casting a vote against the principles of the old-time democracy.

"At their side I stand, and with them I am ready to be judge, declaring as I have always done, and as I shall with my latest breath, that the sum of all good governments is comprehended in the maxim that all shall enjoy equal rights, and none shall have special privileges."

When my course is run there may be many who will think that I have not fought a good fight, but there shall be none who can justly say that I have not kept the faith."

**Case Will Probably Not be
Concluded for Several
Days.**

During the trial of the Geiger case Wednesday and Thursday Henderson told the jury and called the three witnesses in the following time in the courtroom for the Younkman robbery: Henderson was not called and told every detail of the arrest of Younkman with Geiger to pull off the job and of the agreement that the pull should be divided five ways. He did not endeavor to make a capital of the fact that the three men entered a plea of guilt to the charge of grand larceny and were sentenced to seven years in the penitentiary, when it was possible that they could have received a sentence for life had they been found guilty of burglary. The defense repeatedly asked questions of the witnesses tending to show that there had been some agreement upon the part of the three that they would be pardoned in the case if they would confess to the crime, if they would testify in the case against Geiger, but all three denied knowledge of any such agreement.

Martin and Dillon were the chief witnesses today and each told a similar story of the robbery that told by Henderson and were subjected to the same interrogation upon the part

not into a trap. Called at Gieger home in the night of the Yeakum robbery with a key in possession. Stood outside for a few minutes and waited until Hender said to go. Hender and Gieger went into next room. Wilson did not hear their conversation. Left Gieger home with Hender and went to Shawnee home and back to the Yeakum home and met Phillips and another man called Whit. All went to church until 12 o'clock and then went to Yeakum home. Hender went to Yeakum home and opened the front door. Phillips and Hender on their up stairs and tied the men and woman in the room. Hender stood down stairs. Wilson admitted state's exhibit No. 4 as the revolver he carried the night of the robbery. When he and Hender stood down stairs they with others searched the trunk found some money. Gold and silver identified scantling on shirt. One identified carried to the Yeakum home for the purpose of bathing in the door. All left Yeakum home and came to Lincoln, the L. E. & W. railroad tracks and just before daylight each received \$20 and dispersed. Hender retained the balance. He and Phillips went together to C. H. & Deshler and caught traction car to Deshler and then went to B. & O. and crawled into box car and went to Deshler. Someone came to the car and closed. Hender and Phillips had the money and left in the box car. He and Hender were taken to Deshler jail.

He gave his gun to a fellow called White who hid it in a pile of ties. Heard others talk of Columbian coins which were taken at Youkum home. Witness was brought to Lima from Deshler.

He had understanding with Henderson that the money stolen should be divided five ways. Gelfer to get two-fifths and he Henderson and a billion each a fifth.

Witness has been in penitentiary three times. First time about 14 years ago and the second time 6 years ago.

Upon cross examination the defense asked Martin what except names he has been known by and James Martin Witness stated he was born at Elmira, N. Y. and had Frank Spenser as James Clarke and John Spenser. Did not know his age.

Witness he can remember how many times he has been sent to the work house. Was sent to penitentiary from Ashtabula about 15 years ago for burglary for a term of one year. Was sent to penitentiary from Cleveland for burglary and larceny for 3

years' term. Did not engage in any honest labor after being released.

Asked if he knew Wayne Herald. Replied he did not. Was sent to reformatory in Indiana for assault with intent to kill for term of 2 to 10 years. Served 3 years and 9 months.

Came to Lima on the day of Yokum robbery and had been in Lima several times before.

Told of going to Yokum home and had revolver. Did not know where any others had guns or not. Did not point revolver at occupants of the store. Witness presumed that five men were men in the party that the Yokumns could overcome if they offered resistance. Did not know who employed Cooper as his counsel.

Did not know Hugh Patton and P. J. Holman. Offered to see you about arranging for a defense."

"No, sir."

Witness was indicted with Henderson on charge of burglary and larceny and plead guilty to the charge of grand larceny. Upon advice of Mr. Cooper

Counsel for the defense offered a series of questions attempting to show that the witness plead guilty to grand larceny and that the burglary charges was thereby wiped out. The state took objection to these questions and the court sustained the objection as the burglary charge still stands against the witness.

Witness was asked if he expected that his pleading guilty to the charge of grand larceny and testifying in the case against Chris Geiger would release him from the charge of burglary. No. sir."

They were brought here from the penitentiary and placed on the stand without any one talking to you?"

"Yes sir."

Martin was excused at 11:50 o'clock.

Court recessed until 1:15 o'clock.

Court opened at 1:20 o'clock and Thomas Dillon was called to the stand.

Dillon testified that he never met Geiger until about January 13th, after the Yoakum robbery, when he went to Geiger home by himself.

Told Geiger he had been connected with the Yoakum robbery and called him out about the other jobs.

Geiger then mentioned to Henderson in order that he might get funds for the defense of him that Henderson told him that the funds were referred to in Henderson's interview had put their money away.

Another party who was at Geiger's home at this time asked Geiger for money for the defense. Geiger said he would give \$25.

Stranger replied that would not do any good—you had better give more.

Geiger said 'You can't threaten me.'

Geiger told them the Yoakum robbery was a blundering job. In reference to the distribution of the money, Geiger said Henderson did not bring the money where he agreed to after the robbery.

Witness told of agreement of division of spoils, that Geiger was to receive two-fifths and that the money should be taken to Geiger's home immediately after the robbery.

Geiger asked him in interview on January 13 why the money had not been brought to him.

Did you see the man who was with you at Geiger's house after you were arrested?"

"Yes. He came into the county jail with Andy Ernst."

"Witness said he visited Geiger's home several times after robbery because he was afraid."

MARION ELK TEAM

Defeated by Lima Lodge in
Fast Exhibition of National Game.

STORMY WEATHER
KEPT CROWD AWAY.

Twirlers on Each Side
Pitched Remarkable
Ball for Amateurs.

The baseball team of the Marion lodge of Elks accompanied by a large crowd of rooters, arrived in the city Wednesday at noon for the game scheduled with the Lima lodge team, at San Felipe park.
The stormy weather kept the crowd away, and the game could not be called until 4 o'clock, owing to the heavy shower about 2:30 o'clock. The diamond and field were pretty damp, which accounted for the errors made by the locals, but in spite of the unfavorable conditions, a fast contest resulted.
In the second inning the locals succeeded in getting three runs across the plate, when Gottfried, Seals and Paddock singled and Mitchell drove one to the middle garden for two bases.
In the fifth inning the performance was duplicated, when Mitchell, Harrod and Creps singled and Altschul doubled to left scoring the three.
The visitors landed one tally in the third when a series of errors followed by a clean hit by Elliot scored Seiz. In the ninth inning the visitors made a supreme effort to over the top of the locals, when two men scored on errors. Pitcher Dupuis then took the matter into his own hands, and after popping out Seiz, fanned the next two up.
At the conclusion of the game the visitors were escorted to the Elk club rooms, where they were royally entertained until about ten o'clock, when the party broke up, in order that the night catch the Erie train for their home city.
The score:

SAD CIRCUMSTANCES

Connected With Death of John Rolston.

John Rolston, who was brought here some weeks ago from Rockford, Mercer county, for an operation, died at the hospital last night at eight o'clock.
Rolston formerly lived here, and was employed at the shops of one of the railway companies, where he was a steady, industrious worker making a good living for his wife and children. Later they moved to Mercer county, where he was born thirty-six years ago, and he became ill. It was thought the trouble was appendicitis until the physicians made an investigation and discovered tuberculosis of the internal organs in an advanced stage. Death followed in fifteen days, and the wife and children were brought here by the county authorities four days ago, the little ones of whom the eldest is only ten years of age, being placed in the Children's Home, where it is probable they will remain.
The funeral services will be held at the Second Street M. E. church at 2 o'clock tomorrow afternoon. Rev. Dunham, pastor of the Second Street M. E. church officiating. Interment will be made in Zion cemetery.

SOCIAL TIME

Was One Pleasing Feature of Elks Visit.

One of the nice things about the visit of the live bunch of Marion Elks was the social session, held at the club rooms last night, and which continued until it was imperative that adjournment be made to enable the visitors to make their last train over the Erie at ten o'clock.
The defeated visitors were in the best humor possible and enjoyed the fun at their expense quite as much as anybody. There was no program given at the local headquarters but just a general, free for all good time and an opportunity to become better acquainted with their fellow Elks.

The first application of Manzan, the great pile remedy, will almost instantly give relief. Continued use of Manzan for a few days will effect a cure. The tube in which it is put up has a small nozzle attached, so that there is no inconvenience whatever. Manzan is for the cure of any kind of piles. It is sold here by the Red Cross Drug Store.

Traveling Useful to President.

The president likes traveling, and the exercise seems to agree with him. He should keep it up, killing as he does, two birds with one stone. His health and spirits benefit, and he extends his personal acquaintance among the leading men of the sections he visits. He will get many valuable points about public business and popular sentiment on his trip. It is an excellent way to pass for information, and the railway conveniences are so great now a person may cover long distances comfortably in a short time. The old-style "desk" president would not be in accord with these times.—Washington Star.

Hon. W. L. David, of Findlay, is going to Boise, Idaho, to locate, and if the rumor is true that he has a line on a seat in the United States senate from that mountain state, we wish him God speed. He has the ability and the personality to get ahead wherever he lands.

The music loving people of Lima who have enjoyed the exquisite music at the Sunday services in Market Street Presbyterian church, with Mrs. C. A. McC... presiding at the pipe organ and a quartette choir composed of Mrs. J. R. Melly, Mrs. R. O. Woods, Mr. M. E. Mikesell and Mr. F. M. Calvert, will be sorry to learn that the quartette will disband and will make their last appearance together at next Sunday's service.

The high class music which has been rendered by these trained musicians has been one of the very attractive features at Market street church, and their retirement is universally regretted by the congregation. The vacancy in the pulpit caused by the resignation of the former pastor, Rev. D. B. Fitzgerald, will not be permanently filled until autumn, and until that time it is expected that the music for Sunday service will be furnished by a chorus choir conducted by a precursor.

This announcement may make that his many friends may have an opportunity to see and hear him again.

Mr. and Mrs. Lee R. Robinson are a recently married couple who are making their home here. The wedding took place last Wednesday at the home of the bride's mother, Mrs. John Wical, and her only daughter Ella, was the chief figure in the festivities that took place during the evening. The wedding was an elaborate affair with a large amount of decorative effects, and a number of guests. The groom formerly lived at Ohio City, but has been employed in this city for several years.

Miss Norah Phillips and Miss Inez Bedford took their Sunday school classes on a picnic to the city park yesterday afternoon. Though the weather was so unsettled, the party left the city at two o'clock and after they got to the park had a most delightful time as the great trees afforded ample protection from the elements.

A splendid supper, with games and a good time for everybody in the party passed the time away until six o'clock when they returned to their homes, a tired but happy set of young people.

Willie's gone fishin', Tommy's breakin' in a colt, George's borrowed his father's shotgun to go huntin', an' Esmerelda Ann is thinkin' of elopin'." THE WEATHER.

Washington, D. C., June 24.—For
Ohio: Thunder showers tonight or
Friday; not much change in temper-
ature.

The people who are paying the
bills have come to the conclusion
that Washington is an expensive
summer resort.

No matter whether Dustin played
a legitimate or other part in the
Gould farce, the dust in the case is
the real climax in the play.

We suggest that Elsie Sigel's
broken-hearted father be made min-
ister to China with sufficient soldiers
to secure some sort of retributive
justice for the murder of his daugh-
ter by an enlightened (?) Chin.

DOES NOT MINCE WORDS.

It is not the fault of the poor man
that his wages are low, despite what
cancellor Day of Syracuse Univer-
sity says. In the opinion of Rabbi
Stephen S. Wise of the Free Syna-
gogue, Chancellor Day said the
wage earner was facing poverty like
that in India if he continued strikes
and agitation.

Rabbi Wise took occasion in a re-
cent sermon to tell what he thinks is
the matter with the poor man. It's
the rich man, he thinks, and he out-
lined his views in an unmistakable
manner. He said:

"There are two dangerous classes
in a democracy, the unemployed,
who work, labor and serve, and the
leisured, who neither will toll nor
serve. There are no neutrals in the
warfare of humanity.

"Checkbooks may pay bills, but
they do not discharge social obliga-
tions. In the days of hard and fast
distinction between God's poor and
the devil's poor, poverty was regard-
ed as the crime or the misfortune of
the individual.

"A true insight enables us to un-
derstand that poverty is not a crime
of the individual, but a symptom of
a social disease, as some have put it.
Today under the industrial era the
idle are not voluntarily idle. Today
men can lay nothing by for a rainy
day, because they have not enough
for the dry days.

"Penitence in old age has
ceased to mean improvidence, for
improvidence is a vice only of those
who have, but it is becoming more
and more inevitable the lot of the
worker who survives into old age.

The fellows in Washington who
are legislating harder for the trusts
than for the masses are all going to
be elected at an early time to stay
at home and hoe corn and attend the
babies.

It is hard to conceive why China
should even think of declaring war

against this country. Our laundry
bills are paid promptly, the chop suey
is good, and we are getting their share
of trade, and occasionally an undertaker
is a good business because some im-
probable yellow tramp has murdered a
boy. American girl!

With pattern covering cotton and
cotton goods, the duty on all
cotton goods goods there can be but
one result—a return to the spinning
wheels of our foremothers, and a re-
newal of the painting of flax.

The Munroe Star remarks that "it
is only a great mind like that of Nel-
son W. Aldrich that can truly under-
stand and explain just how the re-
publican platform pledges are ful-
filled by backward revision upward."

THREE PRISONERS.

(Continued from Page Eight)
tracks, where they dispersed. Dil-
lon went to residence of Bessie Mil-
ler on Central avenue where he staid
all day.

The defense took up the cross ex-
amination of the witness.
The witness was requested to un-
wrap the guns, done up at request of
the state.

Attorney R. L. Armstrong began
the examination of the witness and
asked him his real name, which he
refused to give.

Witness told that he went to Bes-
sie Miller's after the robbery, and
was captured at St. Marys, where he
went to a house of immoral charac-
ter.

Didn't tell girl he went to see
about the Yokum robbery. Witness
got drunk on day following the
Yokum robbery.

"Didn't you send this woman out
to Yokum's to sell silverware, and
she reported that she saw money in
a trunk there?"

"No, sir."
"Did you know that this woman
told the officers information that led
to your arrest?"

"No, sir."
Developed in cross examination
that P. J. Holloran called at the
county jail at noon Thursday, in con-
ference with Henderson and Martin.
Witness did not listen to the conver-
sation.

Witness refused to tell where he
got the guns and the court upheld
him on grounds of possible incrimina-
tion.

Witness took the guns to Christian
Geiger. Defense suggested that
Andy Ernst told witness to take
them there, which witness denied.

Witness was never in the peniten-
tiary before present time. Was iron
molder by trade, worked in Califor-
nia and Maine. Refused to give
name at that time. Witness gave
name of employers at various places.

"Weren't you the first one to make
a statement about this case, and did-
n't Henderson and Martin get angry
because you had told?"

"Not that I know of."
"When did you first become ac-
quainted with Paddy Holloran?"

"I stopped at the city hotel and
don't know him very well now."
Recess was taken for fifteen min-
utes at 3:20 o'clock.

Counsel for the defense desired
that no one talk to the witness dur-
ing the recess.

Court refused an order of this
kind.
Geiger Case Continued From Wed-
nesday.

Recess of fifteen minutes was taken
at 3:15 o'clock.
When you were on the night of
Nov. 6, 1901?"

"I don't know."
"Did you kill Foster Shively at the
village of Kossuth on that night?"

"No, sir."
"Did Martin or Dillon kill him on
that night in your presence?"

"Not to my knowledge."
The defense asked a series of ques-
tions endeavoring to locate the wit-
ness at Kossuth on the night of Nov.
6, 1901, but failed.

The cross examination then return-
ed to the evening of the Yokum rob-
bery, the witness relating again the
story of he and Martin going to the
Geiger home. He and Geiger had
an interview and Henderson told
Geiger he came to see him about the
Yokum affair. They talked of Mor-
gan's arrest. Asked Geiger facts of
Morgan's case. The Yokum case was
ripe, and Henderson replied: "If so,
it would be pulled off that night. He
related again the story of Geiger's
having several other jobs, as Geiger
had told at the former conference
with Morgan and Henderson. Also
repeated proposition of the real es-
tate man who wanted some one put
out of the way, in order that he
might retain a deed which he held
and that the real estate man was
willing to pay \$250 to have it done.
Henderson replied as Morgan had
previously, that he wasn't running a
slaughter house.

Attorneys for the defense asked for
the indictment of John Henderson for
burglary and larceny in connection
with the Yokum robbery, but the
same had been taken out of the

RICH RED BLOOD

Means Rosy Cheeks, Clear Complex-

of Energy.

What does rich, red blood mean?
It means brain, vitality, ambition,
hopefulness, persistency, and every-
thing worth living for.

But you can't have rich, red
blood if your digestion is imperfect,
and your digestion is certainly im-
perfect if you have a sour stomach,
acid taste in mouth, lump of lead af-
ter eating, belching of gas and nerv-
ous unrest, so far reaching in its
effect of indigestion that many
times the eye itself is affected.

If you have indigestion or any
symptoms of stomach distress or
agony, Wm. M. Melville will sell
you a mighty remedy for 50 cents,
and guarantee it to cure or money
back.

The remedy is called MI-O-NA. Its
powerful, reconstructive action on
the stomach is a little short of mar-
velous. It tones up, strengthens and
puts new life and energy into the
worn out stomach in a few days. It
cures by removing the cause. If you
are a sufferer, try a large 50 cent
box. It's a small price to pay for
banishing indigestion.

MI-O-NA is sold by Wm. M. Mel-
ville, in Lima, for 50 cents a box.

Witness testified that after the rob-
bery that all five walked into Lima
together.

The record of the case of the state
of Ohio against John Henderson was
produced.

The witness was indicted for bur-
glary and larceny. Entered a plea of
guilty to the charge of grand larceny
and was sentenced to the peniten-
tiary for a term of seven years.

Counsel for defense asked the wit-
ness if he knew that if he had been
found guilty of burglary that he
might have been sentenced to the
penitentiary for life.

Counsel for the state objected to
such a question in its form. Objec-
tion overruled.

The original indictment was found.
Counsel asked the witness if that
when he entered a plea of guilty to
the charge of grand larceny, if he
expected that he would have im-
munity from punishment for the
charge of burglary, if Chris Geiger
is convicted.

He replied: "No, sir."
"Was any inducement held out to
you to enter a plea of guilty to grand
larceny?"

"None whatever."
Counsel for the defense continued
to endeavor to get the witness to tes-
tify that he was induced to plead
guilty and agree to testify against
Christian Geiger, which failed. Hen-
derson was quick and clear in all his
statements.

The state asked a few questions in
re-examination to make more clear
some statements made in previous
examination.

Henderson was excused at 5:19
o'clock, and court adjourned until
9:30 o'clock Thursday morning.

The court admonished the jury not
to talk of the case, and suggested that
the jurors should not read the news-
papers.

MASONIC DEGREES

Taken at Toledo by Mem-
bers of the Order Here.

Mr. D. E. Baxter, and Mr. H. D.
Grindle were members of the class
made up of men from all over this
section of the state that was initi-
ated into additional mysteries of the
Scottish Rite Masons at Toledo yes-
terday. Mr. Charles Herbst goes up
today as another candidate, and will
go through the work also.

This is the fifty-third semi-annual
reunion of the Scottish Rite Masons
of all the Scottish Rite bodies in the
Toledo valley. Grades from the
fourth to the thirty-second degree
will be conferred the degrees of the
Sublime Prince of the Royal Secret
being the final one, that to take place
at 7:30 Friday evening.

Among the Scottish Rite Masons
attending from this city, in addition
to those who went to take additional
degrees were E. R. Curtin, F. T.
Cuthbert, and M. T. Harper, who at-
tended the meeting yesterday and
Col. W. K. Boone and a number of
others went up today.

MARKET STREET PAVING.

The property owners of west Mar-
ket street, or a majority thereof,
signed the original petition to re-
pave, which guaranteed therein the
right to a choice between "sheet
asphalt, macadam, asphalt block,
vitri-fied paving block, bituminous
crossed paving block, or such other
paving material as may be hereafter
agreed to by a majority of the un-
der-signed petitioners."

This privilege still remains with
the citizens and should be fully ex-
ercised.

THE DOOR OF HOPE WORK.

We want to thank the people of
Lima for what they have already
done for this work. So much has
been given, but very much more
is needed.

We have thought it would be best
to let you know what is needed most,
as we have now more than we can
use of bedsteads and springs. So if
there are any worthy poor who need
them we will give them to you.

Following is a list of needed
articles: Sheets, pillow slips, wash-
ing, bed-spreads, comforts, pillows,
quilts or material to make them of;
dressers, wash-stands, wash-bowls
and pitchers, soap-dishes, hand rollers,
bath and tea towels; soap, laundry
and toilet, and money. Money!
MONEY! We are in debt. Help
us to cancel it.

And we could brighten the yard
wonderfully with a few hot-house
plants; and dear house-wives, when
you are canning or preserving,
won't you put in an extra can for us?
And come and see us, won't
you? We have given up pleasant
homes for this work. We did it
gladly, for we felt it was the Lord's
will, but sisters don't forget us.

We need chairs and rockers, rug-
ets and rugs, matting, stair carpets
and hall carpets.

We have one room for a guest
chamber and we want it furnished
real nicely, for ministers or workers
who may come from other places to
see our home. Who will furnish
this room for us?

Lima takes great interest in her
public institutions, and we know she
will respond generously to this, the
most-needed of all.

We need 22 window screens
in giving: A just pride in our pub-
lic institutions, and The Best for
Jesus.

Beginning with June 22nd, we
shall give an itemized account of the
work and donations for The Door of
Hope.

For information, come or call us.

Spencerville Lad Recovered
From Operation.

Eckert's invalid coach made a trip
to the hospital this morning and took
Frank Porter to the 8:42 train over
the Erie, over which he traveled to
his home at Spencerville.

It will be remembered that Porter
was the young man shot last October
by Walter Core, and he was brought
to this city to the hospital a fort-
night ago to have the bullet removed,
which had been lodged in the brain
during all those months. The opera-
tion was a very delicate one, but en-
tirely successful, and the patient has
been making a rapid recovery.

The Bellefontaine Examiner gives
the following brief account of the
marriage of two young people who

Yazel will be connected with some
restaurant already started or will
open an establishment for himself.

Walter Yazel, of Bellefontaine,

evening at Upper Sandusky.

MANY LIMA PEOPLE

Took Part in Final Exercises
of Bluffton College.

Last evening the closing event of the commencement week at Bluffton college took place, and this was the concert given by the College Choral society assisted by members of the faculty and the school of music.

The seven at teachers from this city who have been in the corps of instructors at the college all took part in the exercises. Miss Hazel Axline played a very fine violin solo, accompanied on the piano by Miss Bernadine Taubkin, while Prof. H. B. Adams gave several of his most difficult and beautiful numbers for the piano. Mr. Jones sang rendering several vocal numbers, and the entire program was one of beauty and artistic worth.

The other commencement exercises were held Wednesday afternoon and with a meeting of the Alumni Association on Tuesday evening, a recital of the Music College under the direction of Prof. Adams on last Friday evening and an open session of the Lowell Literary Society the annual Baccalaureate sermon on Sunday and an oratorical contest on Monday night, made up a program of events that were greatly enjoyed by those who were enabled to hear them.

Colds that hang on weaken the constitution and develop into consumption. Foley's Honey and Tar cures persistent coughs that refuse to yield to other treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. Enterprise Drug Store, M. M. Keltner, Prop.

FIFTEEN MONTHS

Pastorate of Rev. Souder
Ends Sunday.

Rev. G. H. Souder, D. D., pastor of Calvary Reformed church, has presented his resignation much to the regret of his people. Rev. Souder has had only a short pastorate of fifteen months, but his relations to the members of the church and people of Lima have been uniformly pleasant. However, the work is such a nervous strain that he felt constrained to relinquish the pastorate. He has accepted a call from a fine country charge in Shelby county. Mr. Souder will preach his farewell sermon in the church on next Sabbath morning.

Summer coughs and colds are obstinate and difficult to cure. The most prompt method is to take something pleasant which will gently move the bowels; a good laxative cough syrup. Bees Laxative Cough Syrup will surely and promptly cure your cold. Sold by Red Cross Drug Store.
